EFFICIENCY IN THE LAUNDRY ROOM

TO PROVIDE THE HIGHEST QUALITY AND MOST RELIABLE COMMERCIAL LAUNDRY EQUIPMENT TO OUR CUSTOMERS - **CHANGING THE WORLD ONE LAUNDRY MACHINE AT A TIME.**

Since incorporation in 2004 Mag Equipment has evolved into a leading player in the commercial laundry sector. As an innovator the company has always been prepared to champion new initiatives whilst keeping its core values of providing a quality product and service to its customers at a competitive price.

Testimony to the above is the significant number of loyal customers that return to Mag for their ongoing requirements and proactively recommend Mag to other business associates. A key milestone in the company's development was in 2009 being awarded the UK distributorship for Primer ES the Spanish based commercial laundry equipment manufacturer. There are now literally hundreds of Primer machines installed throughout the length and breadth of the country.

To ensure a comprehensive portfolio of machines Mag has supplemented the Primer range with its own brand semi commercial range plus access to other major

manufacturers in order to provide that 'one stop shop' for all laundry requirements. The company provides rental and service offerings to meet all requirements and has all the latest technology to ensure the key planning stage is handled in a professional and effective way.

Mag Equipment Ltd is truly committed to long term relationships with all its customers large or small and will always strive to provide the best equipment, service and support through ongoing investment and development.

PROFESSIONAL HEAVY DUTY WASHING MACHINES & DRYERS

MAG SU/95 RANGE

DISCOVER HOW OUR NEW MACHINES WILL **BENEFIT YOUR BUSINESS**

The MAG SU/95 range of commercial laundry machines are reliable, energy efficient & easy to use. These popular models come equipped with a generous number of useful features which are designed to make your laundry processing better, easier and quicker than ever before. The large drum capacity will help you process more laundry, plus the high spin cycles can reduce your tumble drying times.

MAG SU/95

COMMERCIAL WASHING MACHINE

NEW & IMPROVED MACHINE WITH MAGNIFICENT FEATURES

The MAG SU/95 Washing Machine is a popular model with 20% more capacity and lower water consumption than the previous version. It's stylish design, improved features and competitive price makes this washer the preferred machine of choice for many customers. You can select a cycle within seconds from the easy to use control panel and you can save time thanks to helpful features such as instant door opening at the end of each cycle and faster spin programs.

WASHING MACHINE FEATURES:

- High Spin Wash Cycles (1,200rpm) to reduce tumble drying times
- Large Drum Capacity (9.5kg) allowing you to process more laundry
- Lower Water Consumption to help cut your running costs
- Pre-Programmed Cycles for easy program selection
- Increased G Force (440 G) for greater water extraction
- Instant Door Release saving you time at the end of the cycle
- Sound Reduction resulting in less operating noise / cabinet vibration
- Tilted Control Panel for ease of use & better visibility
- Eco Option for processing smaller loads
- Dynamic Balancing with re-designed suspension
- Fully Updatable Firmware for future proofing
- Enhanced Wash Options
- Leak Detection Feature
- Superior Wash Quality
- Easy Installation
- Auto-Dose Ready

VARIATIONS / OPTIONS:

Available in manual or coin operated
Machines can be self heat or boiler fed
Pump drain or gravity drain (sluice)

REGULATIONS:

WRAS approved, category 5
WTL approved
Complies with CQC requirements

MAG SU/95 STACKED WASHER / DRYERS

SAVE SPACE WITH OUR STACKING SYSTEMS

Do you have limited space available within your laundry room? The MAG SU/95 Stacked Washer Dryer could be the machine that you have been looking for! The slim and stylish design lets you double-up on efficiency, saving you space when compared with the side-by-side units. Stacked Twin Tumble Dryers are also available if you are looking to increase your drying capacity with two dryers together in an upright position.

TESTIMONIALS

“Our processing times are up and the laundry staff love using the new equipment. We would have no hesitation in recommending MAG Equipment Ltd.”

Peter & Dianne Murther, The Norfolk Cleaning Group

“The sales and install teams have been readily available with advice and support all through the process and the quality of equipment supplied and professionalism of the install team has been second to none.”

Dave Woodward, The Lowry

“We are confident when it comes to the laundry room and its operation as the machines are very robust. We have always been very satisfied with the level of service provided and recommend MAG to other establishments.”
